TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are by mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue) and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25 per cent of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known to us, or else name of your bank. To those known to me who have established credit, purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 4 per cent state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for one dollar, if ordered before the sale date.
9. Please send your bids now as there is little time left before the sale.

\$50.00 GOLD PIECE, OCTAGONAL 1851

211. **1851 U.S.A. \$50.00 Gold, octagonal.** Around border, AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA 1851. Eagle with upraised wings, 887 THOUS. on label above. Rx. engine-turned design known as "target reverse." Reeded edge. Strictly very good except AUGUSTUS does not show, which is usually weak and often does not show on choice pieces. HUMBERT shows up well, which is

unusual too. Everything else plain. One major scratch on each side, otherwise no bad nicks, just the usual minor ones that these heavy coins received in use. A specimen no better recently sold at auction for \$665. I consider that a fair valuation for this example.

RARE \$4.00 GOLD STELLA

212. **1879 U.S. \$4.00 Gold Piece.** The beautiful type with flowing hair. The value is stated in three ways, ONE STELLA 400 CENTS on the star, and FOUR DOL. below. Brilliant proof; the planchet not as perfect as some come, and very slight abrasion visible only under a strong glass. The defects are very trifling, and only mentioned because of the high value of the coin. Only 415 pieces minted. I know of a specimen not as nice selling for \$1250. Catalogues at \$1050, but has been selling higher since the Guide Book was prepared nearly a year ago. One must consider that such coins as this are in great demand, and have steadily risen in price since the days when I was a young dealer, and could always supply them at \$75 each. None in my stock today, and we have waiting lists for them. This is the Geo. M. Osborn specimen, and consigned with his collection in this sale.

COLLECTION OF SILVER DOLLARS

A collection of Morgan type dollars (59), and Peace type (8), all different dates or mint-marks, dating from 1878 to 1928. 37 pieces are brilliant uncirculated choice pieces with a catalogue value of \$200. In addition there are 17 extremely fine coins, and 13 fine to very fine, many of scarce issues, making a total of 67 pcs. Total cat value about \$275. Sale estimate \$165.
 1554. Another set of 67 pcs. equal to above lot in quality. Many choice gem coins in these two sets. An excellent time to put away such coins, when they are obtainable. Estimate \$165, and cheap at that price.

UNCIRCULATED ROLLS OF SILVER DOLLARS

Now is the time to buy and put away some of these beautiful uncirculated silver dollars. They will not always be obtainable. I know from first hand authority that one big casino in Nevada has to draw new supplies of silver dollars from Federal Reserve Banks at the rate of 10,000 a week. Considering the hundreds of casinos in business today, they cannot last forever. Tourist trade is so heavy, that many tourists become fascinated with the silver dollars used in Nevada trade, and take supplies along with them out of the state. Many of them become coin collectors, after they have picked up a few at face value for a start. On these rolls, my estimates are based on present wholesale roll valuations, but all will be sold regardless of cost, to highest bidders.

END OF SALE — THANK YOU

COIN COLLECTORS' COLUMN OF COMMENTS

Rare coins and paper money for everybody are to be sold in this sale. Not always do we have so wide a variety, that we can expect a bid sheet from nearly every person who receives this catalogue. Our mailing list has grown so large (over 19,000 names of collectors on our lists) that it becomes necessary to revise it, due to high costs of printing such a catalogue, and distributing it. Therefore, **IF YOU ARE NOT BIDDING AT THIS SALE, please drop a card or letter in the mail**, requesting that we continue your name on the mailing list. If we do not hear from you, or receive bids from you, we will consider that you are no longer interested.

Look at the index in the back part of this catalogue, to find quickly the items that interest you. There are beautiful coins in nearly all series. United States coins from half-cents to \$50.00 Gold Pieces, both round and octagonal, are offered. There is a beautiful proof \$4.00 gold stella, as well as early U.S. gold eagles of 1795, 1796, 1799, etc. Many early gold half-eagles, and quarter eagles including a nice 1802. Commemorative gold & silver, California gold coins, foreign gold, and paper money of all kinds appear in this sale.

Your bids are worth while at these sales which are very different from some sales where most items are sold on the floor to room bidders. In this sale every item goes to a mail bidder, and you are one of them. Thus, your chance of successful purchase is much greater than at most other sales. Every item is sold without reserve, and to mail bidders only.

Collectors of experience have found that not all dealers classify the condition of coins alike. To the collector this should be a very important matter, and wise collectors soon learn where to buy their coins, and where not to do so. Mr. Bolender began to collect and study coins just 50 years ago. He is from the old school, and learned to classify coins from the Chapmans, Elder, Proskey, and Lyman H. Low, attending many of their sales in person. Much has been said and written on the subject of condition of coins, in this country, in recent years. The matter rests upon the honesty and integrity, and the knowledge and experience of the dealer. Mr. Bolender believes that a coin or note should be described exactly and carefully, and the same whether he is buying or selling it. In auction his position is neutral between the buyer and the seller or owner, and every coin is described by Mr. Bolender personally, and never by the consignor. The many years of success with these 190 sales would never have come about, without this care. A coin described

as "fair" is not a poor or worthless coin, if it is rare. Fair coins show at least half of the design and lettering. Good coins are often not badly worn, and they must show all design and letters and date plainly. Fine coins have very little wear, and such coins as Indian cents and Liberty head nickels must show all letters of word LIBERTY clearly. If any of these coins have bad nicks, dents, scratches, planchet defects, corrosion, or other defects, such defects should be also noted. A good coin ought to be "good" and not "bad." A fine coin should be very pleasing to the eye. Very fine, extremely fine, and uncirculated coins must all be choice pices, of desirable quality, and defects should be stated. It is not fun to have to return coins that are not as represented. It can be delightful pleasure to receive items that satisfy.

When you receive your coins, your comments as to whether you like the condition of the coins sent you, or whether you do not, will be greatly appreciated. If anything is not satisfactory, you may be sure that Mr. Bolender will fairly consider your case.

More requests than ever come in for catalogues of these sales. Our supply of catalogues for the last sale was exhausted 10 days before the sale date. For any disappointmnts I apologize, but it is increasingly difficult to keep up with today's demand and interest in numismatics. Our advice is to get your bids in early, and requests for price lists before the sale date.

Important. Many new collectors bid at each of our sales. Too many of these send in their bid sheet only a few days before the sale date, with a reference for us to look up. Since it often requires from one to two weeks to process a reference and get replies, we cannot enter some of these bid sheets. If you are a new customer, and late with your bids, the proper way is to enclose postal money order or bank draft, or cash registered, for the required 25% deposit, and mail it as early as possible. Early bidders have a much better chance than late bidders, for there are often two or more bidding the same amount on a coin or bill, and then it goes to the first bidder.

Efficiency in our office is the reason why many of you received the price list of the last sale, before you received your coins. All of the printed price lists were mailed first class **only six days after the sale date.** In this way, you can tell whether you bought anything, and what. Of course, it requires a few more days to get all the coins and bills sent out to the hundreds of purchasers. Please be patient. The largest orders are sent out first, and the smallest amounts go out last. This is why you may receive your price list before the coins. If your coins arrive without a statement, just wait a day or two for that to arrive, airmail.

When your collection is for sale, write me a letter. I will purchase it for cash, and the larger the collection is, the better. If your collection is very large, I will come to your home with my car, for the collection, and save you all the work of packing. No extra charge.

Biggest bargain in the sale will be the price list at only one dollar, if ordered in advance of the sale. You will get from it much interesting information and pleasure, and will profit from the up-to-date record of present-day values. After the sale date, the price is two dollars. Just mark your order in the place provided on the bid sheet. These are mailed first class about a week after the sale.
